

The Impact100 SRQ grant helped fund the purchase of the building that Mothers Helping Mothers (MHM) was leasing. Because MHM was awarded our grant, they received a matching grant, making the total impact \$228,000. MHM will now be able to provide additional support services for families in need by partnering with other organizations that offer wrap around services. The space they have will expand from 2,675 square feet to 7,500 square feet and permanently secure their storefront in our community. With the additional space, they will be able to exponentially serve more clients, handle an increase in donations, and allow for more space for volunteers. <http://MHMSarasota.com/>
